PEACHEY
WOOD PRODUCTS

PRODUCT INFORMATION

Some items in this catalog are non-stock and require a 8 -10 day lead time.

- Special Orders:** Orders for special or custom parts **can not be cancelled** once production has started. A 50% deposit is required on all special and custom orders before production can begin.
- Interior Use:** All products are manufactured for interior use.
- Paint Grade:** Poplar has color variation and is considered paint grade material.
- Half Newels:** Half newels are available at 75% of the price of full newels. Box Newels are available as half newels.
- Heartwood and Sapwood:** The difference between heartwood and sapwood is more pronounced in some wood species than other wood species, in particular Ash, Cherry and Walnut. When we establish a Sales Price, whether it is for stock product or custom work, we anticipate using both the heart and sapwood. As such, you should expect to see some natural color variation in the product you receive. Please be aware of the possible variation in wood color that may result if the job calls for a clear or natural satin finish.
- Mouldings & Handrail Lengths** We make every effort to provide you with the moulding and handrail lengths you specify. If we do not have the exact length you order, we will send you the next longer length that is available. In instances where we must ship the next longer length, you will be billed for the actual amount of material that was shipped.
